---

---

Looking Closely

- What do you wonder?
- What do you notice?
- What does this remind you of?
- Have you seen this before?
- I am curious...
- Can you share your thinking?
- What else does this make you wonder?
- Can you tell me more?
- Why do you think that?

## Reflection

- Which activity did we talk about in this video that you could try this week?
- When looking at the science curriculum for your grade which content lends itself to outdoor learning?
- What questions, concerns, or wonders do you still have? (You can talk to your school group about these or you can email us [radford\\_l@surreyschools.ca](mailto:radford_l@surreyschools.ca) or [roshea\\_b@surreyschools.ca](mailto:roshea_b@surreyschools.ca))
